Sirs,

It has come to our attention that your website (<http://www.forcesitaly.org/italy/index.htm>) has reproduced material that was recently used by one of our staff scientists, Dr Sasco, at a scientific meeting at the Italian Institute for Cancer Research in Milan. Copying the powerpoint presentation was illegal, and the World Health Organization, and the IARC insist that this use of copyrighted material be stopped immediately.

This message is being copied to the proper Italian Authorities, in order for them to take any legal action that will be needed to have these rights respected.
